

Quarterly brief

Two pages. Recolor the ink, then export as images.

InkShift renders every PDF page to a picture in the browser.

Nothing is uploaded. Shift ink and paper, then download PNG, JPG, or WebP.

Use the sample to try Night, Blueprint, Sepia, and custom colors.

PAGES

02

Letter size

EXPORT

PNG JPG

or a ZIP of all pages

PRIVACY

On-device

No server copy

Try this

1. Open Color and pick Blueprint or Night.
2. Drag Ink and Paper to any pair you like.
3. Export this page, or download the whole file as a ZIP.

Hold Compare on the preview to see the original page.

Ink, paper, midtones

Recolor maps light pixels to paper and dark pixels to ink.

Paper

Light

Mid

Dark

Ink

A good pair keeps body text readable and the page quiet.

Night inverts the studio. Blueprint is for mark-up. Sepia is archival.

Export checklist

PNG for sharp type. JPG or WebP when the file must stay small.

2x is the usual screen size. 3x if you need print-adjacent detail.

Filters apply to the pixels you download, not only the preview.
